

# CALIFORNIA OIL & GAS

CALIFORNIA USES ALL OF THE OIL WE PRODUCE — CURRENTLY **37%** OF WHAT WE CONSUME

# 37%

# IMPORTED OIL & GAS

THE OTHER **63%** IS IMPORTED FROM FOREIGN COUNTRIES AND OTHER STATES

Source of Foreign Imported Oil:

California oil means a secure, affordable supply of energy for our cars, businesses and homes and promotes energy independence.

## ENERGY INDEPENDENCE

Foreign oil subjects us to energy shortages and price spikes and makes us dependent on foreign countries for our energy.

California-produced oil means billions of dollars in tax revenue to support schools and public safety.

## TAX BENEFITS

Imported oil is exempt from paying these California taxes.

California oil means high paying jobs for Californians.

## JOBS

Imported oil means those high paying jobs go to foreign countries or other states.

All oil and gas produced in California is used here and is produced under the most stringent regulations in the world.

## ENVIRONMENTAL BENEFITS

Imported oil must come by train or tanker, further increasing costs. Foreign oil comes from many countries with few environmental protections.

**INSTEAD OF PENALIZING CALIFORNIA CONSUMERS BY BANNING PRODUCTION HERE, WE SHOULD BE PROMOTING SECURE, AFFORDABLE IN-STATE PRODUCTION, JOBS AND CALIFORNIA ENERGY INDEPENDENCE.**

CALIFORNIANS FOR  
**ENERGY INDEPENDENCE**
